gritonet is an enterprise with wide experience that offers these following services since 2003:

- domain registration
- web hosting
- dedicated servers
- web development

### **Mission of gritonet**

The mission of gritonet is to offer internet products and services of optimum quality to his customers, obtaining and keeping their satisfaction and loyalty, and at the same time a profitable and sustainable growing.

### **gritonet team**

gritonet is integrated by a young, dynamic and wide-experienced team that works to offer the best technical and commercial medium to his customers.

If you would like to apply to work at grito.net, send your curriculum to: [rrhh@grito.net](mailto:rrhh@grito.net)

### **Technology at gritonet**

It would not be possible to offer a good service if, beside being an excellent team of workers, we would not have the best technology. Last generation servers and connectivity equipment of great features are the key factors in the quality of the service.

 **bthere** : technology developed by gritonet team that allows a very innovating way of managing the services. You have never been so close to your server. For further information:

### **What makes a difference of gritonet?**

- gritonet offers a quality service at a fair price.
- gritonet offers a good technical/commercial support, with a very short time of reply.
- gritonet includes in all its dedicated servers the revolutionary system bthere.
- If gritonet offers 5GB of monthly transference, it is 5GB. Don't expect less from us.
- gritonet offers the best API to resell domains, and completely free of charge.
- gritonet has its offices in Barcelona (Spain).
- gritonet also has its own servers. They are also in Barcelona (Spain), in the data centre Telvent. Not in the moon, not in the lumber room, not in Krytpon.
- grito.net is an enterprise.
